**510(k) Summary**

Submitter's name and Address: ClearMedical, Inc.
1776 – 136th Place NE
Bellevue, WA 98005
Ph (425) 401-1414
Fax (425) 401-1515

FDA Registration Number: 3017110

Contact Person: Richard Radford
Director of Research and Product Development
(425) 401-1414

Date Summary Prepared: August 8, 2001

Trade or Proprietary Name: ClearMedical/Huntleigh Deep Vein Thrombosis (DVT) Garments

Common Name: Deep Vein Thrombosis Garments

Classification Name: Sleeve, Limb, Compressible (per 21 CFR section 870.5800)/JOW

Equivalent Device

The ClearMedical/Huntleigh reprocessed Deep Vein Thrombosis (DVT) Garments are substantially equivalent to the Huntleigh DVT Garments (DVT 10, DVT 20, DVT 30 and DVT 40). This determination has been reached based on an evaluation and analysis of the predicate device's technical and promotional labeling and specific bench testing. For all established indicators of substantial equivalence, the ClearMedical devices demonstrated equality in safety and performance.

Device Description:

The ClearMedical/Huntleigh DVTs are accessory devices to a DVT System which is used for the prevention of deep vein thrombosis. The DVT Garment is designed with inflatable bladders that fill with air to provide compression to the calf and thigh. A connector tubing system attaches the DVT to the pump system.

CLEARMEDICAL, INC.

www.clearmedical.com

510(k) Summary (Cont'd)

The DVT Garments are latex-free, made of a polyester-cotton fabric. They are designed with velcro hook straps, an anatomical bladder and molded polyethylene tubing with a polypropylene colder snap-lock connector.

Intended Use:

The ClearMedical/Huntleigh DVTs are intended as a single patient use accessory to a Huntleigh AC550 Flowtron pump. The role of the DVT is to reduce the incidence of deep vein thrombosis, reduce pain and swelling after injury and surgery, and increase arterial blood flow. The DVT Garments are used in conjunction with the Flowtron pump for non-ambulatory patients in a hospital environment.

Technological Characteristics of ClearMedical and Predicate Devices:

The predicate device and the ClearMedical/Huntleigh DVTs contain bladders that inflate with air to control circulation of a designated limb. Attached to the Garment is a connector tubing system that connects to the Flowtron pump. In form, the predicate device and the ClearMedical reprocessed DVT are substantially equivalent.

Technological indicators of substantial equivalence were identified and included method of infection control, fit/attachment, bladder function, velcro adhesion, and connector function.

The predicate device is delivered to the customer labeled "non-sterile" whereas the ClearMedical/Huntleigh DVTs are delivered to the customer labeled "High Level-Disinfected." ClearMedical's infection control methods meet or exceed the CDC and APIC Guideline for Handwashing and Hospital Environmental Control, 1985, and APIC Guideline for Selection and Use of Disinfectants standards for this class of device.

Summary of ClearMedical/Huntleigh DVT Performance:

Based on an assessment of bench tests and non-clinical performance data, we believe that in all relevant safety and performance indicators the ClearMedical/Huntleigh DVT Garments demonstrates substantial equivalence to the predicate devices, the Huntleigh DVT Garments.

Re: K012621

Trade Name: ClearMedical/Huntleigh Deep Vein Thrombosis (DVT) Garments
Regulation Number: 21 CFR 870.5800
Regulation Name: Compressible Limb Sleeve
Regulatory Class: Class II (two)
Product Code: JOW
Dated: January 16, 2002
Received: January 17, 2002

Dear Mr. Radford:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801 and additionally 21 CFR Part 809.10 for *in vitro* diagnostic devices), please contact the Office of Compliance at (301) 594-4646. Additionally, for questions on the promotion and advertising of your device, please contact the Office of Compliance at (301) 594-4639. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). Other general information on your responsibilities under the Act may be obtained from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its Internet address <http://www.fda.gov/cdrh/dsma/dsmamain.html>
